

February is National Heart Month. . . the Right Time to Find Out  
Why Cholesterol-Lowering is the Wrong Approach to Heart Disease

# The Oiling of America

Evening Lecture by Sally Fallon  
President, The Weston A. Price Foundation  
Author of the bestselling *Nourishing Traditions*

Tuesday, February 19, 6:30-8:30 pm  
Wardman Park Hotel, Washington, DC  
Admission \$65

Space is Limited. Preregistration is strongly suggested

**PHONE:** (240) 379-7072      **EMAIL:** registrar@ptfassociates.com

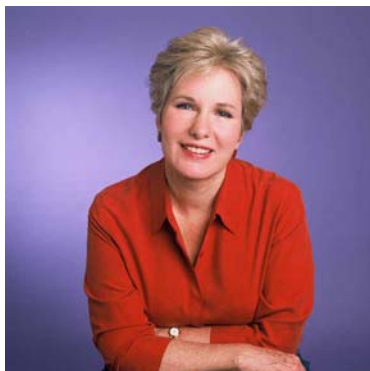

**ONLINE REGISTRATION:** <https://www.ptfassociates.com/secure/OilingofAmerica/Registration.htm>

Topics covered include:

- Fraud and deception in heart disease research
- The vital role of cholesterol and saturated fats in human biochemistry
- The behind-the-scenes influence of the powerful vegetable oil industry
- Dangers of cholesterol-lowering drugs
- How the cholesterol theory of heart disease has led to our current health crisis
- Ignored evidence on what *really* causes heart disease

Registration includes lecture notes and reprint of articles on heart disease  
from *Wise Traditions*, the quarterly journal of the Weston A. Price Foundation.

The Wardman Park Hotel is located at 2660 Woodley Road, off Connecticut Avenue  
Metro Access: Woodley Park Station on the Red Line

Sally Fallon is founding president of The Weston A. Price Foundation, a nonprofit nutrition education foundation that provides accurate information on nutrition, cholesterol and dietary fats. She is the author of that bestselling cookbook *Nourishing Traditions* (NewTrends Publishing) and also of *Eat Fat Lose Fat* (Hudson Street Press), both with Mary G. Enig, PhD, the first scientist to warn the public about the dangers of *trans* fatty acids. An articulate communicator, she is a well-known lecturer on the relationship of traditional diets and human health.
